

Digital Gadgets Bluetooth Keyboard Case 3 Piece Combo Charging Pairing & Usage Instructions - Model Number DGIPA431BK

Please follow the steps below exactly as they appear

1. Plug the Bluetooth keyboard into the **white cube** that came with the iPad, then, plug the cube into a **wall outlet** letting it charge for **at least an hour**. Keep the keyboards power switch (pictured below) in the off position. The red light above "CHRG" will illuminate. (a *full charge will take 6-8 hours*).

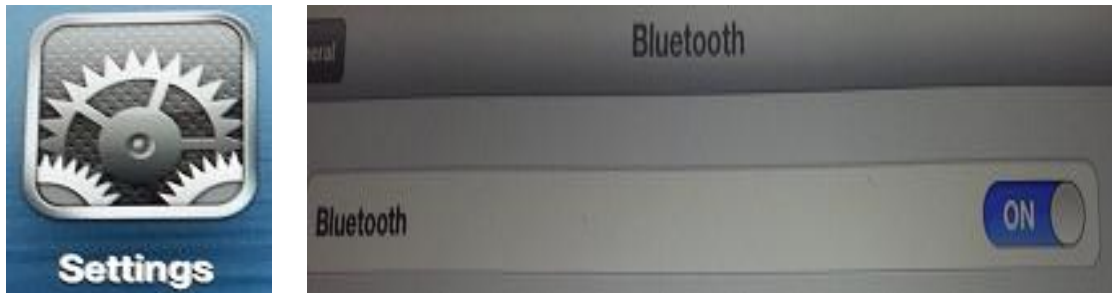

2. Once the keyboard is fully charged the red light will go out. Move the keyboard power switch to the **ON** position.

3. **Hold down** the "**Connect**" button until the light above "BT" illuminates. This indicates the keyboard is in pairing mode.

4. On your iPad tap **Settings** then **Bluetooth** making sure Bluetooth is **ON**.

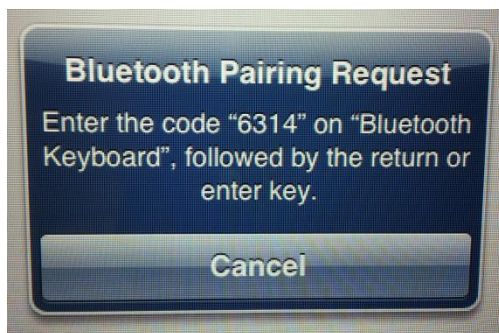

5. Your iPad will discover the keyboard and show "**Bluetooth Keyboard**" on the list of devices.

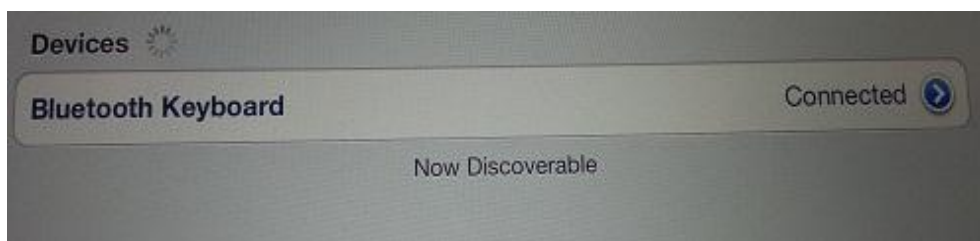

6. On the iPad tap the words **"Bluetooth Keyboard"** from that list. (*If Bluetooth keyboard is not on that list, try pressing the "connect" icon again.*)

7. A notification box with a passkey should now appear on your iPad screen. *This is just an example passkey. Yours will differ

8. Enter the passkey on your Bluetooth keyboard (*you will not see anything on the display as you do this*), and press the **return** or **enter key**.

9. Your iPad screen should show the keyboard as connected or paired.

You are now ready to use your Bluetooth Keyboard.

This product can be easily detached into 3 parts:

- 1) Bluetooth Keyboard
- 2) Stand
- 3) Case

This product can be used as 1 piece (assembled)
or as 3 products (disassembled).

Using the Keyboard as a Stand

1. To adjust the angle, you will need to use the Adjust Switch. The Adjust Switch is located on the top left of your Bluetooth Keyboard.
2. Move and hold the Adjust Switch to the left- Pull the stand outwards as needed (while holding the switch). Push the stand inward to go back to your original position.

Using the Stand

To detach the stand, move and hold the adjust switch to the left- Pull the stand outwards until it is separated from the Keyboard. Use the stand as shown in the image.

Using the Case

Make sure the Stand is detached from the keyboard before attempting to remove the stand.

Press and hold the tabs together to release the pivots.

To re-attach the case to stand, press and hold the tabs together and place on the empty space on the back of the iPad.
